We Desire to Call Your Attention To

For Lubricating the Valves and Cylinders of Steam Engines.

VALVOLINE is an earth oil specially prepared under the highest steam heat and from which all volatile and earthy matter has been expelled by a process which leaves a pure and heavy oil, which prevents the eating away of bolts and keeps the cylinder and piston packing perfectly clean. This was the first Mineral Oil introduced for steam cylinders and has been in constant use over eighteen years.

We also manufacture Superior Machine and Spindle Oils for all classes of machinery.
